Modules: Qualitative and Quantitative Research Methods, Applied Machine Learning, Behavioural Science in an Age of AI/TECH, Computational Models of Social Behaviour

BASc Applied Psychology in Human Behaviour (Distinction) - McMaster University Hamilton, Canada
Thesis: Toxic positivity vs. empathetic leadership in Organisational Citizenship Behaviours (PI: Dr. Catherine Connelly)
Coursework: Measuring & Shaping Behaviour, Organisational Behaviour, Research Methods, Statistical Methods (R-Studio)

FELLOWSHIPS & PROGRAMMES

Venture Fellow | Newton Venture Program × London Business School × Phoenix Court Mar - May 2026 | London, UK

- Selected for a cohort programme designed to level the playing field for investors from typically overlooked backgrounds, covering the full investment lifecycle including dealflow, valuations, negotiations, legal structuring, follow-on financing, and portfolio scaling.

Venture Fellow | ASES Stanford London Bootcamp Jan - Mar 2026 | London, UK

- Built a seed-stage thesis backing proactive health and longevity startups in European gerontech, arguing a widening demographic gap makes the market urgent, and selected 3 founder-led companies to pitch to an Antler venture panel.

EMPLOYMENT & WORK EXPERIENCE

Founder's Associate, Insights & Growth | Orbit Intro · Early-stage B2B SaaS Jan 2026 - Present | London, UK

- Engineering a data-led communications framework that increased response rates from 4% to 18% by translating 50+ behavioural signals into training data for automated outreach.
- Synthesized 50 psychological profiles into unified outreach archetypes, providing the ground-truth data for a time-series model used by the Data Science team to track the longitudinal impact of messaging on introductions.

Innovation Strategist | Andskunkworks & Fae Jan 2026 - Apr 2026 | London, UK

- Led 20+ user interviews on trust and adoption for an AI-native fintech. Translated these findings into core product values and strategies to bridge the gap between technical complexity and user readiness.
- Coordinated cross-functional research operations across AI strategy and product-market fit workstreams. Managed a team of 7 Cambridge MBA strategists to deliver unified stakeholder recommendations and project timelines.

Curriculum Design & Research Consultant | Reframery × UNHCR Sept 2024 - Jun 2025 | Hamilton, Canada

- Translated high-level UNHCR research into an applied 7-module financial-literacy curriculum for refugee entrepreneurs. Synthesized complex psychological and economic guidelines into accessible program modules for non-specialist audiences.
- Designed and implemented a longitudinal research framework to measure program efficacy and participant outcomes. This operational rigor directly supported the launch of three profitable businesses under UN guidelines.

Strategic Coordinator | YMCA Greater Toronto Area Mar 2024 - Dec 2024 | Toronto, Canada

- Managed a \$2,000 project budget and led a team of 6 to deliver community engagement activities across Canada. Ensured 100% compliance with budget parameters and grant reporting requirements.
- Scaled program participation by 40% in 3 months by conducting user research across 30+ partner organizations. Identified and resolved operational barriers to enrolment through targeted strategic improvements.

HACKATHON

Breaking Barriers to AI Safety 2026 | London Initiative for Safe AI (LISA) June 2026

- 4th place out of 30 teams; built and deployed a live AI ethics dashboard auditing 11 major AI labs for supply chain harm, using peer-reviewed behavioural theory to score each lab and generate governance interventions.

Chief Of Staff Hackathon 2026 | ORBIT × RIVAN INDUSTRIES May 2026

- Won 1st place by translating a simulated triple-crisis into a structured action plan that protected £120M in funding and contracts in under 2.5 hours.

SKILLS

Operations & Programmes: End-to-end program delivery, university outreach design, logistics management, and ecosystem coordination.

Communications: Technical translation for non-specialists, investor outreach, and training material development.

Technical: Python, R-Studio, Excel, Figma, Notion, Claude, and ChatGPT.
